

Meet Thomas DeVore _____
The PEOPLE'S Attorney

Tom is a southern Illinois attorney who has spent the past two years educating, empowering, and equipping the Illinois citizens with the necessary tools to fight government overreach and mandates. Tom is known for his battles in the courtroom, fighting to keep small businesses open and challenging the governor's onerous mask mandate on schoolchildren.

Tom spent part of his childhood in a poverty-stricken trailer park in southern Illinois, where, as a young boy, he often thought about what it would take to make it to the other side. The passion and perseverance that brought him through to achieve his dream have fueled his passion for justice in his professional life.

As a constitutional attorney, Tom knows the power of government is with the people. Although Tom often battles in the courtroom, his true passion is to educate, empower and equip his fellow citizens with the necessary resources to ensure we remain a government of the people, for the people, by the people.
